<ul style="list-style-type: none"> • Staff • Visitors to your premises • Cleaners • Contractors • Drivers • Vulnerable groups Elderly, Pregnant workers, those with existing underlying health conditions. • Anyone else who physically comes in contact with you in relation to your business 	<p>RPE (Respiratory Protective Equipment)</p> <ol style="list-style-type: none"> 1. Public Health guidance on the use of PPE (personal protective equipment) to protect against COVID-19 relates to health care settings. In all other settings individuals are asked to observe social distancing measures and practice good hand hygiene behaviours. 2. Where RPE is a requirement for risks associated with the work undertaken the following measures will be followed- <ul style="list-style-type: none"> • Tight-fitting respirators (such as disposable FFP3 masks and reusable half masks) rely on having a good seal with the wearer's face. • A face fit test will be carried out to ensure the RPE can protect the wearer. • Wearers must be clean shaven. 	<ol style="list-style-type: none"> 1. To minimise the risk of transmission of COVID-19 during face-fit testing the following additional measures should be carried out – Both the fit tester and those being fit tested should wash their hands before and after the test. 2. Those being fit tested with non-disposable masks should clean the mask themselves before and immediately after the test using a suitable disinfectant cleaning wipe (check with manufacturer to avoid damaging the mask). 3. Test face pieces that cannot be adequately disinfected (e.g. disposable half masks) should not be used by more than one individual. 4. Fit testers should wear disposable gloves when undertaking cleaning of the tubes, hoods etc. and ensure they remove gloves following the correct procedure. Info 	All Employees	5th Jan 2021
